

Sec. 2-12

Modification of Requirements

When conditions pertaining to any subdivision are such that the public may be properly served with water and with fire protection without full and strict compliance with these rules and regulations, or where the subdivision site or layout is such that the public interest will be adequately protected, such modification thereof as is reasonably necessary or expedient, and not contrary to law or the intent and purpose of these rules and regulations, may be made by the department with the approval of the board.

The Board retains the right to modify any requirements, provided that the modification will in no way jeopardize those already served in the area.
